2. Oliver to let young people know they have won.

**4. The Coming Term**

Following on from last week, council members decided that it was best to target the environment, litter & bins specifically, for the rest of the term. Council members decided on this because it is something that Broxbourne Borough Council as a whole are looking at, as well as it being something that the Youth Council has wanted to do over the past year.

Council members spoke of several areas in the borough which they thought should be targeted because there was either a significant amount of litter or a lack of bins in that area. The following areas were suggested;

- Paul Cully Bridge
- Crossbrook Street from Cheshunt all the way to Theobalds Grove Station
- Nightleys Playing Fields
- Pound Close

It was then decided that each area should be investigated by the council member who suggested it, in order to find out what the main problem in that area is.

It should also be noted that Lloyd has had communication with Councillor Monaghan who stated that partnership would should remain on hold until elections have taken place.

**ACTION:** Council members who suggested their area, to go out, take pictures, note down where bins are and find out how often they are collected.

## 5. AOB

1. Emma spoke about the fact that there would be another webinar around how young people have coped with Covid. If council members would like to get involved, they should speak to Emma directly.

2. Council members raised the issue of potentially completing a meeting outdoors or moving the time and day of the meetings. Oliver to investigate the potential of this.
