**derek
staines
103A Cuffley Hill
Goffs Oak**

30 years ago The Council refused a planning application from Bellway to build in this area. This developer contested this decision, appealing to The Planning Inspectorate (Department of the Environment). This authority rejected the appeal on the grounds that the development was inappropriate use of green belt land & more traffic entering Cuffley Hill would be dangerous as it was already operating over-capacity (30 years ago!)

If The Council (supported by the Planning Inspectorate) refused a planning application in 1991, how does it consider it to be appropriate now to accept??

The last 30 years, especially recently, have seen the environment seriously eroded, infrastructure becoming totally inadequate & road conditions (including illegally high levels of pollution) become intolerably dangerous.

**If The Council continue to support this development it will be shameful & disgraceful.
Object to proposal**
