2022/23 Quarter 3 Capital Monitor

2022/23 Quarter Three Capital Monitor

Introduction

The primary purpose of the capital programme is to support the Council in the delivery of services through expenditure on the acquisition, creation or enhancement of assets.

The capital programme is approved at full Council each year as part of the annual budget setting process.

In addition to the capital budgets approved as part of the budget setting process, the capital programme also includes capital carry forwards. These are the budgets for projects included in prior years' capital programmes where the projects are expected to take more than one year to complete. There are also additional capital budgets established in-year (where appropriate external funding has been identified) and approved by way of a concurrence in accordance with the financial regulations.

The overall value of the capital programme at the start of the 2022/23 financial year was £55,727,814 and the value of in-year budgets that have subsequently been established currently stands at £682,154. £23,848,247 of the total budget are active projects and £32,561,721 is set aside for future projects.

Executive Summary

This monitor summarises the overall capital programme for the Council as at the end of the third quarter of the financial year (April to December 2022). It includes the following:

- summarised information about spend against budget
- specific information about some of the main capital projects that are in progress
- summarised information about the budgets and spend of the capital programme projects, as well as their respective funding sources
- a listing of capital virements and capital budgets established in-year
- a full list of all the capital projects (Appendix A)

Capital Projects

The table below shows the total budgets of the capital programme for the year, grouped into broad headings for similar items of expenditure. The table also contains the corresponding combined actual and committed spend up to the end of the third quarter of the financial year (April to December 2022), as well as the percentage of the budget that this spend represents.

The Theobalds Enterprise Centre (TEC) project is a development on land west of the A10 dual carriageway (at the Maxwell's Farm site). This is a £12m project funded partly from the Council's own resources, a £5m contribution from the Local Enterprise Partnership (grant (£2.6m) and loan (£2.4m)) and £2m from s106 contributions from the adjacent site. The TEC will provide space for 60 small and medium sized businesses.

It is anticipated that the building will be handed over to the Council for the final fit out at the end of February 2023.

The Council has submitted a Levelling Up Fund (LUF) bid to support the regeneration aims for Waltham Cross Town Centre and is currently awaiting the outcome (this is expected in January/February 2023).

If successful, the public realm improvement project will be delivered which includes:

- Improved pedestrian and cycle access plus a more modern look and feel is expected to improve trade for existing shops and businesses and provide a more attractive and vibrant environment for new businesses to set up.
- Enhancing the community hub and skills training centre will increase footfall and improve job prospects for local people.
- Improvements to Waltham Cross playing fields, including the addition of a new skate bowl, refurbishment of the sports pavilion and new outdoor gym equipment, aiming to improve the health and well-being of the local community.

Capital Virements

In accordance with the Council's Financial Regulations a virement is the transfer of budget from an already approved budget to an alternative project. During the year, a budget virement may be requested, so that spend on a capital project can take place.

Requesting capital budgets from capital contingency is the most common form of request, the capital contingency budget is approved as part of the capital programme during the budget setting process.

The following table shows the virements that have taken place during the third quarter of the financial year (October to December 2022).

| Description | Budget (£) | Service Area (From) | Service Area (To) |
|---|---------------|---------------------------|----------------------|
| A budget has been vired from the Operations Building Asset Modernisation Programme to part fund the Bishop College office refurbishment. | 173,078 | Finance | Finance |

In-Year Capital Budgets

During the financial year, where internal or external funding has been identified, an additional in-year budget will be approved to allow expenditure on a capital project to take place.

The following table shows the in-year budgets that have been established during the third quarter of the financial year (October to December 2022).

| Description | Service Area | In- Year Budget Established (£) | Funding Source |
|---|-----------------------|------------------------------------|-------------------|
