- 14.4 If the lease is not renewed and/or the Council is unable to make contact with the leaseholder within six months of the expiry date, the remains will be sensitively removed from the chamber and interred at a suitable alternative location within the cemetery. The chamber may then be re-leased.
- 14.5 The front cover plate of each chamber shall form the memorial for that chamber and may be inscribed by a Council appointed stonemason. Inscription is subject to approval by a Memorial Permit application which must be submitted and approval given before any work agreed is carried out. No other form of memorial will be permitted and no items may be attached to the cover panel unless agreed and authorised by the Council in writing.

16. RECLAIMED GRAVES

Both Cheshunt and Hoddesdon cemeteries have used graves where the Exclusive Rights of Burial was not purchased when a burial took place and no memorials placed on the plot.

Most of the burials within these graves took place at least 60+ years ago. These plots can be re-used for one or two burials (depending on the depth of the previous interments) and the existing remains will not be disturbed. The Exclusive Right of Burial will then be issued to the purchaser.

17. PUBLIC GRAVES

Public graves (historically referred to as Common graves) are available to use in both Cheshunt and Hoddesdon Cemeteries. The Council retains the ownership of these graves where no specific rights have been granted and no memorial is allowed. Multiple non-family members may be buried in the same grave.

- 18.4 During the last year of the lease the Council will attempt to make contact with leaseholder on three occasions by letter and/or email and/or telephone (depending on the records held by the Cemetery department): at 6 months, 3 months and 1 month. If no contact is made and the lease is not renewed, the cremated remains and the memorial plaque may be removed and stored for a further 6 months. After this time the cremated remains will be scattered within the cemetery. The memorial plaque will be sensitively disposed of. The niche may then be re-leased.

19. CREMATED REMAINS PLOTS

Each plot can hold up to four sets of ashes (depending on size of containers).

- 19.1 The ERoB for a cremated remains plot is for a period of 30 years from the date of purchase for the fee listed in the current cemetery fees and charges

- 20.2 Graves within the children's area may be adorned with informal items, such as balloons, flags and decorative items, as long as they are placed within and do not extend beyond the boundary of the plot. The decorative items will only be removed by the Council if they obstruct the maintenance of the cemetery, are considered dangerous or are in disrepair.
- 20.3 Financial support for Children's burials may be available to families through the Children's Funeral Fund. For more information, visit www.gov.uk

- 23.1 Species of tree to be agreed with the Arboriculture Officer and may be dependant on size, location and other trees currently present.
- 23.2 The fee payable is dependant on species and size of tree purchase. The cost must be paid by the family before tree is ordered and planted.
- 23.3 Once the tree has been planted within the cemetery, it shall cease to become the purchaser's property and will be maintained by the Council staff and contractors.

- 26.3 Grave sinkage (settlement) will be reinstated as and when it is noted but at a minimum, 3 weeks after the burial and again 3 months after the burial. Owners of the Exclusive Right of Burial will not be notified in advance when this work is to take place, although they may request this to be done if they notice significant settlement at other times. If there are a number of flowers/memorabilia on the grave, the family will be required to remove this before the grave can be topped up.

- 31.3 The ownership of Exclusive Right of Burial in any grave or vault can only be transferred from a deceased owner to a resident or a non-resident in accordance with the current legal process adopted by the Council and on receipt of the assignment fees as details in the Council's fees and charges. If the interment, or interment of cremated remains of the deceased owner did not take place in the Borough's cemeteries, proof of death must be provided.
- 31.4 Ownership can be transferred from a deceased owner to a resident or a non-resident by Certificate of Probate, Letter of Administration or Statutory Declaration in accordance with current legal process adopted by the Council and on receipt of the assignment fees as details in the Council's fees and charges. These must be original copies bearing the seal of the issuing authority.

32. MAINTENANCE OF GRAVES

- 32.1 Graves should be kept in a neat and tidy condition by the deed holder or visitors to the grave.
- 32.2 Due to the risk of harm caused, no stone or glass chippings, aggregate, gravel, shingle or any similar loose material may be laid or placed on grassed areas or around any graves, plots or memorials.
- 32.3 The Council will attempt to contact any EROB owner for any grave found to not be kept neat and tidy including any unauthorised surrounds. If no contact can be sought, the Council will take whatever action necessary to improve the appearance of the grave.
- 32.4 No person, unless a Council employee or authorised contractor, may interfere with the grass surfaces, trees, shrubs, bushes, flower beds, hedges, walls or fences within the cemetery. Persons disregarding these rules are committing an offence, as listed in Appendix A.

33. MEMORIAL PERMITS

It is important to ensure memorial safety within the Cemeteries and therefore all memorials must be fixed by Memorial Masons who are registered either with BRAMM (British Register of Accredited Memorial Masons) or NAMM (National Association of Memorial Masons) in accordance with the latest version of BS8415:18.

- 33.1 A memorial permit application must be submitted for all memorial work (i.e. new memorials, changes to the memorial, memorials being re-instated following burials, inscriptions, additional inscriptions etc.) and is subject to the approval of the Council.
- 33.2 All memorial permit applications must be completed and signed by the owner of the EROB. If there is more than one owner, all owners must sign the permit application. The application along with a plan (showing the size, details and dimensions) and inscriptions must be submitted to the Cemetery Office for approval. The application will not be considered until all paperwork is received.
- 33.3 The Cemeteries Manager has the final decision as to the acceptability of any proposed memorial designs and/or inscriptions and reserves the right to reject any application for memorial that is deemed unsuitable.
- 33.4 Memorials must not be installed without an approved memorial permit.
- 33.5 Memorials may only be constructed of natural material - non-natural materials will not be permitted.
- 33.6 All memorials (including cremated remains memorial tablets) must have the grave plot number clearly inscribed on the memorial.
- 33.7 If a memorial on a Conventional grave requires removing as part of the process to open a grave, this must be carried out in agreement with the Cemetery Manager. The memorial must be removed from the Cemetery by a registered stonemason at least 5 working days before the interment.
- 33.8 Memorials on brick graves may, at the discretion of the Cemetery Manager, be removed to a convenient location in the cemetery, on agreement that the memorial is replaced the day after the burial.
- 33.9 The Memorial Mason must notify the Cemetery Office prior to carrying out the approved memorial work to check the proposed date for the attending. All masons working within the Cemetery must show the memorial permit as requested.
