Mrs L D Hinds

Dear Sir

LANDFILL SITE AT CHURCH LANE, WORMLEY

SBB PSU  
E/280-48 - 173

A recent inspection of your site showed that the level and profile attained by the tipped waste are such that final restoration of the whole site should now be commenced. I am therefore writing to advise you of the views of both the County Planning Officer and the County Environmental Services Officer that from 1st February 1984 the only waste deposited on the site should be clean soil or other soil-forming material in accordance with Condition 18 of Waste Disposal Licence 79/74 and the conditions of Planning Permission E/280-48 dated 30th June 1949.

Failure to comply with this requirement will be regarded as a contravention of both the Planning Permission and the Waste Disposal Licence. I would remind you in this connection of the outstanding appeal under the Control of Pollution Act 1974 and prosecution for non-compliance with the Enforcement Notice dated 4th January 1980 which will continue to be held in abeyance only as long as the site is proceeding satisfactorily towards final restoration.

Yours faithfully

County Secretary
